Assignment 6: HIGH FIDELITY PROTOTYPE

ARSHAD HABIB, RIZA HASSAN, JOON LIM

UW STUDENT JOB PORTAL

1. On the homepage, start by searching "Biology" in the SEARCH FIELD. Then, on the "Jobs you may be interested in" section, select "Biological Research".

2. In the "Job Type" filter, select Part-time. In the "Location" filter, select Madison. In the "Student Year" filter, select Junior. In the "Industry" filter, select UW Student Jobs. *This will not change the jobs.

3. Click "Sort Jobs By" on the left-hand side and select Latest to Oldest jobs.

4. Hover mouse to the Biomolecular Chemistry Lab Support Assistant job card and click on "Click for more description"/card itself. (You will be redirected to a similar page with the job description pop up)

5. Use the scroll on the right-hand side to read more. After reading through the job description, click X on the top right corner to close the description.

6. Click the "star" icon on the Biomolecular Chemistry Lab Support job to mark the job as favorite.

7. Click the "Login" button on the top right corner and fill out this information: Username : "lim62@wisc.edu" and Password: "password123". Then, click SIGN IN. Go through duo by just clicking anywhere on the page. (Signing in will redirect you to the Account page)

8. In the account page, click My account to enter settings. First, type in your profile and click save. Next, click education and fill in the information. Lastly, click attachments to upload files. Clicking save my changes button will show "all changes saved" message when information is successfully saved.

9. Click Home button to go back to the account main page.

10. Click the "plus" icon to apply for the job. (Clicking this will redirect you to the application page)

11. Select the checkbox and click the "Next" button. (Clicking this will bring you to the Agreement and Submission page).

12. Select the checkbox. Click on the "How did you hear about this opportunity?" dropdown, select some, and click "X" to close. Then, click the "Submit application" button. (This will bring you to the Account Page again).
    *Error: Not clicking the checkbox will give an error message.

13. Withdraw the application by clicking on the "Remove" button on the job panel.

14. Logout by clicking the "person" icon on the top-right corner and then click "SIGN OUT"

15. You are logged out and completed the tasks

Tasks for Users
